

# Constitutional Conservatives for the Recall of Robin Vos

As steadfast proponents of our constitutional republic, the rule of law, and the sanctity of our electoral process, we, the undersigned, assert our support for the recall of Wisconsin Assembly Speaker Robin Vos. This call transcends mere policy disagreements, emanating from a profound concern over the stewardship of our democratic institutions and the defense of our state against both internal and external threats to our cherished values.

## Why We Act:

Central to our initiative is the imperative to protect our electoral system from vulnerability and to ensure our leadership adheres strictly to the rule of law. Robin Vos's engagement with the State Legislative Leaders Foundation (SLLF), particularly its partnership with a group directly linked to the Chinese Communist Party (CCP) tasked with influencing state legislators, starkly contradicts these imperatives. Such affiliations undermine our national security, the integrity of our legislative processes, and blatantly disregard the fundamental principles of our constitutional republic.

## What Concerns Us:

- The SLLF and Direct CCP Influence: The SLLF's collaboration with a CCP-associated group, under Vos's vice chairmanship, poses an unprecedented threat to our state's autonomy and the rule of law.
- State Sovereignty at Risk: Decisions that facilitate foreign entity land acquisitions within Wisconsin betray a disregard for our sovereignty and security.
- Election Integrity Compromised: Vos's hesitancy to champion strong election integrity measures betrays the foundational trust in our electoral process, a cornerstone of our constitutional republic.
- Disrespect for Constitutional Rights and the Rule of Law: Vos's actions suggest a concerning departure from the commitment to uphold the constitution and enforce the laws that govern our republic.
- Legislative Maps and Political Self-Preservation: The handling of the legislative map issue, where Vos appeared to prioritize his political survival over the Republican majority, epitomizes a troubling readiness to sacrifice collective conservative interests for personal gain.

## How We Respond:

The urgent need for action to secure the integrity of upcoming elections and reinforce trust in our governance begins with the recall of Robin Vos. This step is vital for demonstrating our commitment to principles over politics and to ensuring that our representatives embody the integrity and accountability we demand.

## A Call to Vigilance Across Wisconsin:

This recall effort is more than a corrective measure against one individual; it is a robust declaration to all in Wisconsin's political sphere that we are resolute in protecting our constitutional republic, enforcing our laws, and upholding the rights guaranteed by our constitution. The people of Wisconsin demand adherence to these standards by all who are

elected to serve, to ensure that our governance reflects the highest principles of public service. Let this initiative remind every official that our commitment to the rule of law and the rights of our citizens is unyielding.

In championing this recall, we are not merely addressing specific failings but are reinforcing our broader commitment to the principles that underpin our constitutional republic. We call upon all who share these convictions to join us in this crucial endeavor.
